

IEEE PDF eXpress is a free service allowing authors to convert their source files to IEEE Xplore-compatible PDFs, or to check their own PDFs for IEEE Xplore compatibility – a requirement for the IEEE Aerospace Conference and for publication by the IEEE.

The author remains responsible for the internal paper format since this service is only to confirm that the final PDF complies with IEEE Xplore requirements for publication, notably embedded fonts.

Authors can submit a variety of source files (listed below) for conversion. IEEE PDF eXpress will return the Xplore compatible PDF files. Since the IEEE Aerospace Conference website accepts only PDFs, this service can be used to prepare such PDFs, pre-certified for publications compatibility.

This should be used sparingly however, since it is envisioned by the IEEE as a final check in the paper creation process. However, if you need help building your PDF, this conversion service may be what you need. IEEE PDF eXpress support is maintained by 24 hour online help and Conference-specific questions are directed our Publications Chair.
